Problem Statement

Problem:

- Millions of Americans, mostly part-time workers often do not have easy access to different types of insurances at an affordable price.
- Lack of awareness and confusing policies from different insurance companies leads to a lot of gig workers not having one.

What is Avibra and how does it solve this problem?

- Avibra is a mission-driven company that provides affordable and accessible financial, insurance and wellness benefits to everyone.
- Avibra turns good habits and positive practices into insurance coverage.
- Users can do so by learning about healthy habits like Wellness tips, Quizzes, Videos, Meditations etc.
